Disclaimer

The information contained in this document does not constitute an offer, invitation to invest or otherwise engage with ALTARIUS ETI AG nor any investment activities mentioned herein,

It is for information purposes only and no rights can be derived thereof. The investment activities described herein carry a high degree of risk, may not be easy to understand, and are not suitable for all persons. If you do not possess the knowledge, experience and financial capacity to fully understand and bear the risk of this activity please consider that it may not be suited for you. When investing, capital is at risk, and you may receive less than the original investment.

Altarius ETI AG is a private limited liability company registered in Liechtenstein under company number FL - 0002.669.856-9. This document should always be read in conjunction with the Base Prospectus issued by the Issuer and approved by the Liechtenstein FMA on 14 June 2022 (the "Base Prospectus") together with supplements, if any, in order for the investor to obtain all relevant information for deciding whether or not to invest in the ETI Securities. The Base Prospectus has been approved by the Liechtenstein Financial Markets Authority (the "FMA") as the competent authority in Liechtenstein.

Exchange Traded Instrument

An Exchange Traded Instrument (ETI) is, as the name suggests, tradable at a regulated exchange. The regulated setting ensures transparency, tradability and safety for market participants.

Overview

The **META ETI** has been specifically designed for conservative profiles, being eligible for retail clients and financial institutions' balance sheets by meeting high standards and rigorous regulatory requirements. The objective of the strategy is to maintain a controlled volatility of maximum 12% annualised and to maintain high diversification ratios via the implementation of a portfolio of ETFs on multiple industries such as equities, fixed income, commodities, and real estate.

The investment process, with the exception of market execution, is fully systematised and consists of a daily search for different portfolio scenarios in order to maintain the target ratios. For this purpose, the algorithm recursively performs calculations with data from the last 10 years until the ideal scenario is found.

Issue Price	1.000,00
Exchange	Börse Frankfurt
Pricing	Daily
Offering	Public
Listing Date	28/12/2022

Investment Objective

The META ETI allocates funds to **diverse asset classes** based on their individual risk limiting the effect that any single asset class can have on a portfolio performance. Additionally, the META ETI employs ongoing volatility management to **limit overall portfolio risk**.

The investment strategy incorporates volatility controls to **limit impact of drawdowns** during market downturns. It seeks to reduce exposure to risk assets in order to protect capital and limit adverse outcomes during times when markets are excessively volatile.

Eligibility Criteria

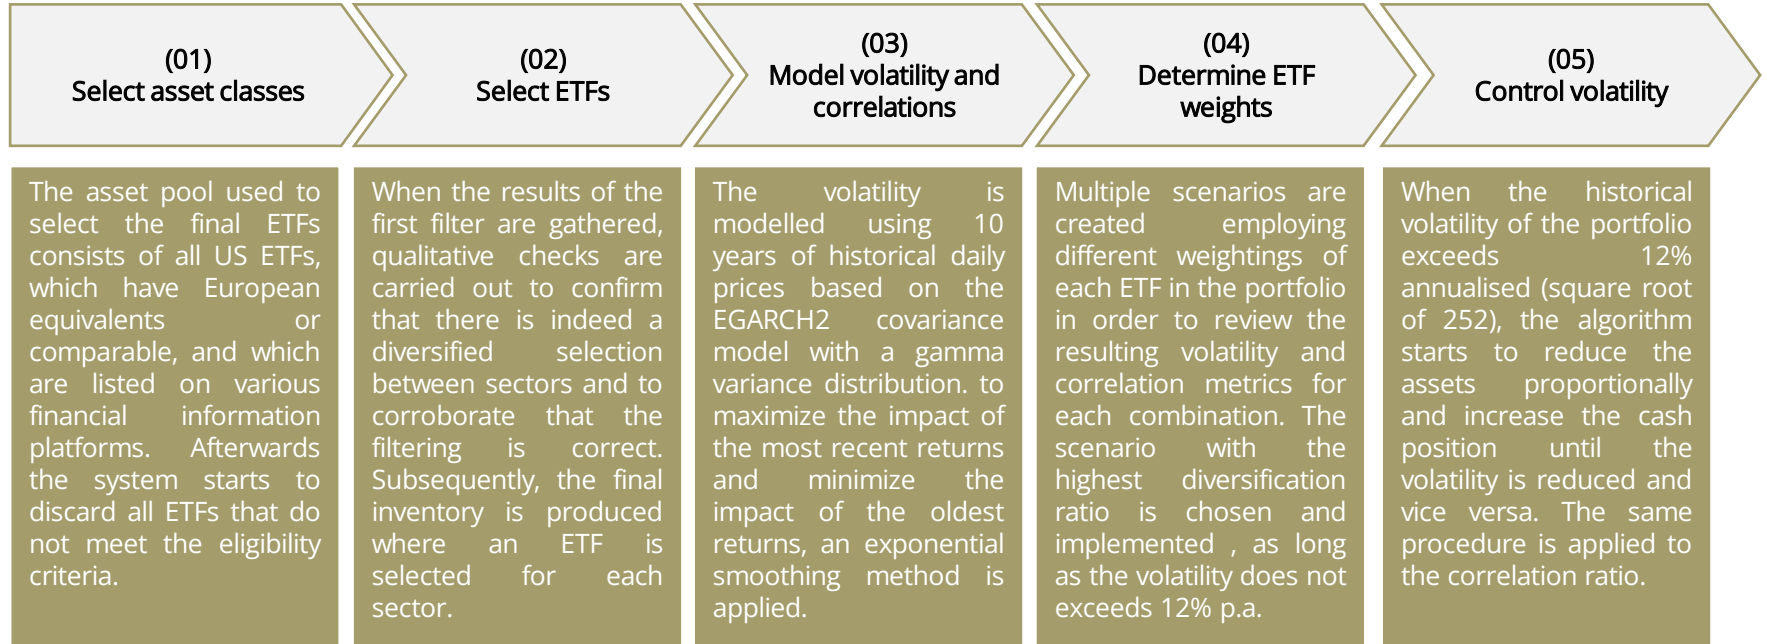

- ✓ Acceptable/eligible for retail investors.
- ✓ Large assets under management.
- ✓ Low management fee.
- ✓ Representative of the sector in which they invest.
- ✓ Support ample additional AUM capacity.
- ✓ Most liquid within their category.

The asset pool used to select the final ETFs that will be part of the portfolio consists of all US ETFs which have European equivalents or comparable. Additionally, all of the assets (ETFs) in the portfolio must comply with the following criteria in order to be eligible.

The sectors in which the portfolio is invested is the result of the specific selection of ETFs, as long as they meet these criteria, as well as being diversified. The Strategy Originator does not have specific criteria to determine the number or quantity of ETFs in which they invest, however, the objective is to maintain an optimized (low) diversification ratio regardless of the number of assets or sectors.

Hedge funds and other funds or ETFs dedicated to alternative management are excluded and are not part of the selection universe.

Investment Process

Limits & Restrictions

The portfolio's annual volatility based in the previous 10 years of daily market data will be limited to **12.00%**.

The portfolio's diversification will be aimed to be as lowest as possible, targeting is to remain below **20%**.

Leverage Net Exposure will be limited to a maximum of **100%**.

Leverage Gross Exposure will be limited to a maximum of **100%**.

The drawdown will have a couple of soft limits at **10%** and **20%** of NAV which trigger a detailed report by the management team.

A soft limit will be assigned to a **60%** of concentration, which, if breached, will be reviewed with the Strategy Originator.

Altarius ETI AG

Issuer

Altarius ETI AG, as the issuer, focuses on the asset structuring practice based on the issuance of exchange-traded instruments and products. Our objective is to provide asset managers with an alternative structuring solution that enhances their management environment and strengthens their scope by eliminating the barriers that faced when launching an ETI.

Our ETI platform provides the required solutions involved in the issuing and listing of the ETI to successfully launch and manage the instrument. The most relevant solutions that Altarius ETI provides are the operational procedures required to constitute the instrument in compliance with regulatory guidelines, the liaison with multiple service providers throughout primary and secondary capital markets, and providing access to a worldwide distribution infrastructure.

Altarius ETI issues innovative investment products that allow investors to access returns from a market or strategy that would otherwise be difficult to access through listed securities.
